## 6 GPM ULTRA-HIGH PRESSURE @ 2900 PSI - GASOLINE ENGINE DRIVEN

While others talk about high pressure foam / water systems...

EJ Metals has perfected high-performance Ultra-High Pressure systems with exclusive technology and design features to make you more effective at fighting fires. EJ Metals' systems are designed for today's fire response environment and allow you to attack vehicle, brush / wildland, jet fuel and even some structural fires with a variety of water / foam streams more effectively than ever before.

EJ Metals is the leader in Ultra-High Pressure foam / water systems. Our Ultra-High Pressure water / foam systems deliver longer run times - use less water and foam concentrate than traditional systems. Only EJ Metals offers and exclusive Ultra-High Pressure pump configuration specifically designed for firefighting. Our Patented EJM TRI-PLEX, triple discharge, Ultra-High Pressure water / foam nozzle is easy to use, lets you select THREE different streams, and delivers exceptional foam quality for better knock-down and suppression performance.
